

# Cost Management in Shipbuilding

## Planning, Analysing and Controlling Product Costs

30<sup>th</sup> August 2018 in Trieste from 9.00 to 12.30

### Topic

Cost Management starts with the proposal and bidding process. Shipbuilding projects have high requirements and specific demands on cost prediction and cost planning.

### Event

The information event “Cost Management in Shipbuilding” will offer the opportunity to learn about suitable costing methods. A focus is on the software “CostFact”. This system supports cost planning from early design stages on and combines several advanced methods.

### CostFact Background

CostFact was developed particularly for the maritime sector and in close cooperation with some of the leading shipyards, which means that a number of best-practice methods have been incorporated into the system. Several European shipyards rely on CostFact and use it as their central tool for cost estimation and cost planning.

### Location, Date and Registration

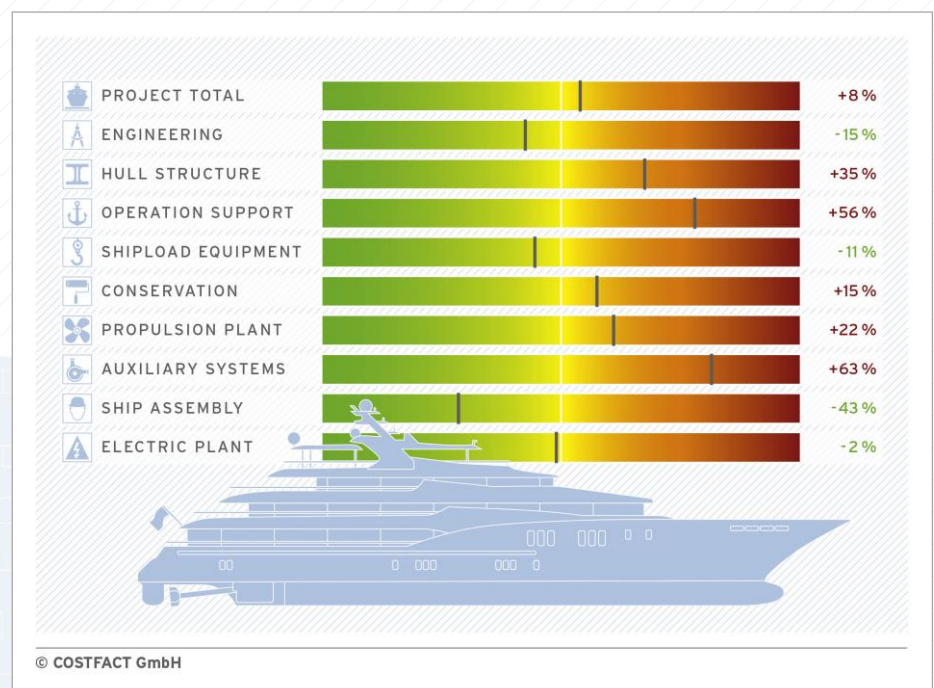

The event takes place in Trieste, Via Flavia 23/1 on 30<sup>th</sup> August 2018 from 9.00 to 12.30. The attendance requires a registration by 17<sup>th</sup> August 2018.

### Further Information

If you require further information, please contact us:

micad@costfact.com

### Highlights

- Predict costs based on **Parametric Cost Estimation**.
- Use **Similarity Calculation** for efficient cost planning.
- Determine and achieve **Target Costs**.
- Gain a new cost view by **Capability Costing**.
- Merge the **Specification and Change Orders** with the calculation.
- Calculate **Ship Series** including non-recurring cost, learning curves, interest and varying distributions.
- Analyse **alternative Production Scenarios**, e.g. inland or abroad.
- Optimise the **Selection of Supplier Quotes**.
- Transfer calculations between **different WBS-Codes**.
- Assess the **Reliability of Cost Predictions** and calculate the prospective forecast error.
- See how to calculate an **Indication Price** with CostFact **within 4 Hours**.
- Calculate **Life Cycle Cost** with **different Scenarios**.
- Learn about the application of CostFact based on **Practical Examples** and real-world **Case Studies**.

#### Companies

*COSTFACT GmbH* is the exclusive provider of the shipbuilding-tailored cost management system “CostFact”. Among the clients are some of the most renowned shipbuilders like Azimut Yachts, Blohm+Voss, Oceanco, ThyssenKrupp Marine Systems and Nobiskrug.

*MICAD marine industry consulting and design* is COSTFACT’s representative in Italy. MICAD is located in Trieste and Lecce and supports the entire shipbuilding process. The “European Commercial Marine Awards” in the category “Vessel Design and Construction” at the SEAWORK 2017 proves the reputation of this modern design and consulting company.
